STATUS LETTER

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This is an inquiry as to the status of this case along with a basic outline and timeline of what has occurred prior to the application being reassigned to Examiner Jian.

Initially, this application was filed on January 23, 2004 and has been pending since that time. It is respectfully noted that Applicant's Supplemental Response to the last office action was filed on January 8, 2010, which is well over seven months in delaying the allowance of the application.

It is also respectfully noted that Applicant has had several telephone interviews with prior examiner Michael Astorino and always followed the prior examiner's suggestions in subsequent

Amendments to Office Actions. At the time of prior examiner Astorino's promotion within the Patent Office, Applicant had fully responded and amended the claims to successfully overcome all of the patents previously relied on by prior examiner Astorino. In fact, the last office action by prior examiner Astorino only address alleged "new matter" concerns and did not reject the claims based on any patents.

Applicant's January 8, 2010 response fully addresses and overcomes the previous alleged "new matter" issue. There has already been numerous prior art searching of Applicant's claimed invention by prior examiner Astorino. Accordingly, it is respectfully submitted that no further searching is required of Applicant's claimed invention. Applicant has previously complied with all outstanding issues, and Applicant's claims and arguments were considered acceptable by prior examiner Astorino.

As mentioned above, Applicant has patiently waited for over six years and has fully complied with all requests, suggestions and requirements of prior examiner Astorino. Such amendments highlighted the uniqueness and novelty of Applicant's claimed invention, and successfully evidenced the patentability of Applicant's claimed invention over the previously cited patents raised by prior examiner Astorino. Please take these conditions into consideration as the Applicant respectfully request that you indicate that the claims are in condition for allowance.

With all proper formalities being given favorable results to date, Applicant respectfully requests favorable action by the issuance of a Notice of Allowance to complete examination of the above-identified application.

Respectfully submitted,

Daniel S. Polley, Reg. No. 34,902
